## I Grow the Best — Discard the Rest

Greetings . . . To My Friends:

It is with pleasure that I present you with this, my Dahlia Catalogue for 1948. Your generous and kind support is thoroughly appreciated and inspires me to continued effort to make available to you only the best.

This catalog would not be complete if I were not to take advantage of the opportunity to thank you for your many letters telling of various successes obtained from stock purchased from me. I am grateful to those who have been able to visit my gardens as well as those who have inspected my exhibits at the American Dahlia Society Shows, and many other shows we attend, because I feel my dahlias speak best for themselves.

To those who are familiar with my stock, no introduction is necessary and you have my pledge that the same quality will not only continue but improve if such is possible. To those who have not tried my service this is an invitation, an invitation that may prove a real opportunity for you to realize something you may not have been able to obtain elsewhere and no order is too small nor is any contract too large, I am pleased to serve you.

ALBERT PARRELLA.

### IMPORTANT NOTICE — DO NOT OVERLOOK

Due to the limited space we are compelled to be brief with our descriptions. However, we want our patrons to know that the varieties listed in this Catalog are either Honor Roll Certificate Winners or has proven with us to be truly outstanding. Not only that, but the varieties offered are reliable in every respect, good growers, fine producers, insect resisting foliage and most of them are of large size blooms, and true prize winners. If you are interested in large size dahlias, you surely are not going wrong by ordering from us. This may be of interest to you to know that we do not force our dahlias for size, but we are gratified to know that our customers secure the lion's share of prizes at the Show.

### VISITORS ARE WELCOME

You are cordially invited to bring along as many friends as you possibly can to my gardens at any time after August 15th and see this magnificent sight. You are under no obligation to buy, but welcomed and I will be as happy to see you as you will be to see this magnificent collection of gorgeous massive flowers in all of the colors, shades, and tints of the rainbow.

I will have over 300 varieties, most of them Honor Roll dahlias, as well as many promising seedlings, and many new ones sent by other growers for trial and that have not been released for sales as yet, as well as many novelties.

We want to thank those who have sent to us Seedlings for trial this past season. Assure you we have given them the best of attention. We would appreciate receiving more of them for the coming season providing they are good. We will do all we can to put them over.

**TEN BRIEF SUGGESTIONS TO THE AMATEUR**

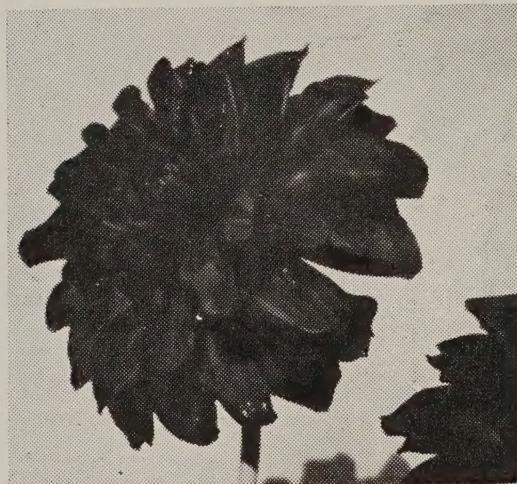

**ON HOW TO GROW BETTER DAHLIAS**

1. Select easily grown varieties and those giving full satisfaction.
2. Prepare the selected planting spot well and place the supporting stake.
3. Dig a hole next to the stake, about 10 inches in diameter and 7 to 8 inches deep, and place one handful of bonemeal in the hole, or any other recommended fertilizer and mix thoroughly with the soil before planting.
4. Place roots in flat position with the sprout or "eye" facing upwards. Cover lightly with about 2 inches of soil. In doing this be careful not to damage the sprout. As the plant grows, fill around the stem with soil.
5. Do not plant too early. At times, too early planting spoils good roots. I would suggest planting from June 1st on, except in climates where a short growing season is prevalent. In that case use your own judgment.
6. Keep the soil well cultivated throughout the season, and prevent weeds from outgrowing the plant.
7. Water plants during hot weather at least once a week. Do not merely sprinkle them, but soak them. This must be done after sundown.
8. Tie the plant to the supportive stake with soft cord, at distance of 12 inches apart. This is done as an added security against destruction by wind and storm. Spray with any reliable parasiticide at least once every two weeks.
9. About August 1st, scatter a handful of bonemeal about 6 inches around the stem and rake it gently into the soil. Other fertilizers may be used if desired. Do not use excessive amounts of fertilizer as injury to the roots will result.
10. About August 15th, the same treatment as above is applied. Disbudding at this time aids in the formation of bigger and better flowers and longer stems. This should insure good results. If any other information is desirable, I will gladly forward you the same.

**RUBY GLOW**

**A REWARD WELL DESERVED**

1947 was one of the worst Dahlia seasons we have had in a long time. The early part cold and wet, the middle hot and dry until the middle of September. To top it all an early frost hit us on September 29th. But in spite of this the Queen of the Autumn "The Dahlia," never let us down as can be seen from my show record, Westchester County Horticultural and Agricultural Association, White Plains, a special prize. A. D. S. New York Show, Gold, Silver and Bronze Medal and Flower Grower Special Trophy for my new introduction Gypsy Girl. New York Florist Club, a Gold Medal for my seedling named Gay and Silver Medal for my display; and last but not least the below chapter and medal speaks for itself.

**THE MAX SCHLING MEDAL**

The Max Schling Medal was conceived and designed by the late Max Schling, one of the leaders in American horticulture for many years. Mr. Schling was always interested in the promotion of horticulture, and was dedicated to encouraging all amateur and professional horticulturists toward the achievement of improved horticultural specimens and craftsmanship.

The awarding of this Medal has always been reserved for those who have not only produced horticultural material of the highest caliber, but who have used ingenuity, perseverance and craftsmanship in the production of a fine plant, or in the staging of an exceptional display under trying conditions.

We are very proud that we are the recipients of the Medal for this honor which was undoubtedly due to our ability to bring through a period of severe frost flowers, which in the Judges' opinion were supreme show quality. Many of the flowers that were exhibited were cut four days in advance of the Show. Others were protected by individual bagging and every means at our command was used to insure a satisfactory display the first Saturday in October, 1947.

The Judges' Team at the Great Neck Men's Garden Club Annual Fall Show where this medal was awarded numbered in its group some of the highest ranking authorities in Eastern Horticulture, a fact that makes us doubly proud of having achieved the award of this Medal.

**A NEW BOOK ON DAHLIA CULTURE**

Publisher: Orange Judd Publishing Co.

Read what the critics say:

This is an ambitious title but the author covers the subject thoroughly in a masterful style.—*Gardeners' Chronicle of America*.

This book will be a useful guide to both professional and amateur grower, as it is written simply and directly, with a thorough knowledge of the subject.—*Florists' Review*.

Here is contained a most comprehensive history of the dahlia, replete with pictures from early publications, tracing the history of this exotic flower from its first findings in Mexico through its introduction into Europe and eventually to the United States.—*New York Herald-Tribune*.

The chapter on culture is most complete and covers all the aspects that any grower will look for. Here are all the details all growers need.

Mr. Riley gives some very important pointers on the care of plants and cut blooms that are to go to the show table. All the necessary suggestions that will help the grower to win blue ribbons are set forth in detail.—*New York Herald-Tribune*.

I have never read a more sensible book on the growing of one genus.—*Golden Gardens*. The entire volume is highly recommended.—*Gardeners' Chronicle of America*.

Mr. Albert Parrella:  
Dear Sir and Friend:

In retrospect kindly allow me to render an account of my stewardship in my Dahlia Garden this past season—altho it was a very hard growing one, the hottest and driest that we had in many years, but regardless of the attack by Red Spider we grew some gorgeous ones; special reference to your Ogden Reid; you know when a fellow can cut over 1 dozen blooms off one bush, blooms that would be worthy of any man's show, that's going some; in fact they took the eye of all that visited our garden.

# JUST A FEW OF OUR MANY TESTIMONIALS

Parrella Dahlia Gardens  
Dear Mr. Parrella:

Have been intending to write you for some time, but have waited as I know the past months were busy ones for you.

First, let me tell you that your dahlias performed very well for me this year. I believe that White Christmas is one of the most beautiful whites I ever saw; also, Mrs. Knox and I were greatly pleased with John J. Pershing and your stock of Jersey Beauty is the best I have seen of that variety. Carl Dahl made about the biggest blossoms we have seen, and the stems were fine and held the huge blooms in fine style.

Before I forget it, in mentioning dahlias of yours which did well for me, let me name Vin Well Paragon. Mrs. Knox's aunt thought it the most beautiful one I grew and I thought it was very good myself.

In conclusion, let me thank you again for your fine and generous treatment of me in all your dealings. Truly, it has been a pleasure to do business with you.

Director Marshall A. Howe and Dorothy Schmidt, received last year, were magnificent. Marshall Howe was especially admired by the hundreds of visitors to our gardens.

Dear Sir:

Two years ago I shared 100 of your dahlia seed with Rev. Chase of this town. The results were very satisfactory, so I want you to send me 100 seeds of your "large size" dahlia seed.

Dear Mr. Parella:

Please send me a copy of your 1948 Dahlia Catalogue.

The dahlias I got from you last spring attracted a great deal of attention. By actual measurement one of the Lynn Fontanne blooms was  $12\frac{1}{2}$  inches in diameter; and there were six blooms on the plant at one time which ranged from 9 to 11 inches in diameter. In addition, Hunt's Velvet Wonder, Ogden Reid, Son of Satan, White Wonder, and Virginia Rute did remarkably well. I have grown dahlias on a small scale for fifteen years; and, thanks to these additions to my collection, I had a more striking display this past summer and fall than ever before.

Sincerely yours, F. L. Carmichael
